Work Experience

FULL-STACK WEB DEVELOPER

Méliuz | 09/2016 ~ current
Belo Horizonte, Brazil

I work as a full-stack developer using agile methods with duties of creating, maintaining and rewriting our customer features. Not only but also I work fixing bugs, upgrading interfaces and improving performance on features of other areas of the company.

Achievements

- Worked on and delivered a project to make the most profitable webpage on the company load in less than the 2s and have a score on Google's PageSpeed Insights of >99

- Helped the technical development of recently joined developers

- Led a small team of developers, divided in 2 locations with different timezones
